

ENVIRO-FRIENDLY CLEANERS

OIL CLEAN (LIGHT/MEDIUM OIL DEGREASER)

Where you need to remove light to medium oil from surfaces use OIL CLEAN. Formulated with d-limonene, citrus oil and cleaning agents which easily wash off safely with water once scrubbed into the surface.

CODE	DESCRIPTION	PACKING
BC10129	OIL CLEAN	25L DRUM
BC10135	OIL CLEAN	5L
BC10136	OIL CLEAN	1L SPRAY

OIL CLEAN - HD (HEAVY OIL DEGREASER)

Formulated with d-limonene, a naturally occurring citrus oil to which performance enhancing cleaning agents have been added to speed up the penetration and removal of even heavy deposits of oil and grease and general (surface contaminant) OIL CLEAN - HD has a flashpoint of 57°C and is fully rinseable with water, making it ideal for soak and rinse applications involving the removal of heavy deposits of surface oil. Using no raw materials which require an occupational exposure standard OIL CLEAN - HD industrial offers safe and effective cleaning.

CODE	DESCRIPTION	PACKING
BC10140	OIL CLEAN - HD	25L DRUM
BC10145	OIL CLEAN - HD	5L
BC10150	OIL CLEAN - HD	1L SPRAY

ROAD CLEAN (OIL REMOVAL FROM TAR SURFACES)

ROAD CLEAN is an effective and ecologically safe way to clean and degrade diesel and other hydrocarbon soils from hard surfaces. ROAD CLEAN does not require hazardous labelling, is easy to use and leaves no harmful residues. After application it produces a biological action in the wash water that continues to degrade oil soilage in drains and interceptor systems.

CODE	DESCRIPTION	PACKING
BC10120	ROAD CLEAN	25L DRUM
BC10121	ROAD CLEAN	5L
BC10122	ROAD CLEAN	1L SPRAY

SOIL CLEAN (BIOREMEDIATION OF OIL IN SOIL)

SOIL CLEAN is a biological oil stain remover for gravel, sand and similar porous or irregular surfaces. Typical application areas include railways, power utilities and fuel storage areas. SOIL CLEAN contains a blend of biodegradable surfactants, enzymes and naturally occurring oil specific bacteria in a convenient, ready to use gel formulation. Biological action reduces all oil and grease stains to carbon dioxide and water by product with no harmful residues. SOIL CLEAN is a effective and environmentally safe solution for rapid oil and grease removal.

CODE	DESCRIPTION	PACKING
BC10131	SOIL CLEAN	25L DRUM
BC10133	SOIL CLEAN	5L
BC10134	SOIL CLEAN	1L SPRAY

ROAD BIO HD (OIL REMOVAL - HARD SURFACES)

Biological oil stains remover for use on hard and semi-porous surfaces such as concrete, brick paving workshop floor, factory floors, petrol station forecourt and fuel storage depots. ROAD BIO HD contains a blend of biodegradable cleaning agents, enzymes and naturally occurring oil specific bacteria.

ROAD BIO HD is an environmentally safe way to remove and degrade oil contamination from hard surfaces. Independent laboratory tests have shown that ROAD BIO HD biological oil stain remover is capable of reducing by 60% the hydrocarbon content of its own wash water within 28 days.

CODE	DESCRIPTION	PACKING
BC10128	ROAD BIO HD	25L DRUM
BC10129	ROAD BIO HD	5L
BC10130	ROAD BIO HD	1L SPRAY
